Head HRD: hrd@cimap.res.in

Course coordinator
Dr. Karuna Shanker

Principal Scientist

Analytical Chemistry Department CSIR-CIMAP, Lucknow-226015

Phone: 0522-2718580 Mob. 9415329718

E-mail: k.shanker@cimap.res.in

Techniques and Topics to be Covered

UPLC/HPLC

- Instrumentation
- HPLC/UPLC method development
- Transforming HPLC method to UPLC
- Column Chemistry
- Preparation of test solutions
- Directions for analysis
- Interpretation of quantitative analysis
- Documentation of Results

HPTLC

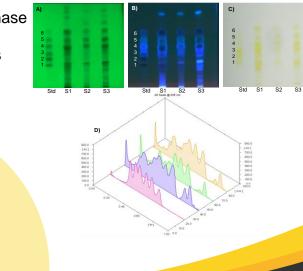

- HPTLC method parameters
- Different stationary phase and uses thereof
- Instrumentation
- Directions for analysis
- Interpretation of quantitative analysis

Preparative HPLC

- HPLC method parameters
- Method scale-up from analytical HPLC pHPLC
- Columns and stationary phas
- Mobile phase
- Instrumentation

Flash Chromatography

- Uses of the technique for upscaling/ purification
- Transformation of TLC method to FLASH
 - Different stationary phase and uses thereof
- Directions for analysis

TRAINING PROGRAM

An outstanding platform to get an exposure to UPLC, HPLC, HPTLC & Flash liquid chromatographic techniques and upscaling of the components by preparative HPLC will be offered pertinent to medicinal plants and prepared products thereof. A complete theoretical as well as practical knowledge on these techniques, related maintenance of instruments and method development can be extracted from this training.

GET THE AUTHENTIC RESULTS

The present training is expected to intensify the knowledge on subject and allow person to apply modern liquid chromatographic techniques in different application, and the role of each module in multi component instrumentation. This course will enable candidates to develop HPLC methods and transferring the parameters adaptation of documented methods in their own application. Additionally, the training will enable you to updates with latest International guidelines (ICH & USFDA) of method developments:

- Better understanding of the parameters provided in any in a documented analytical method.
- Follow pertinent method to arrange a system for analysis/upscaling.
- Perform an analytical method and obtain results of chromatographic analysis.
- Interpret the acquired chromatograms from UPLC/HPLC/HPTLC analysis.
- Calculate results of analysis of the analytical results.
- Implement common measures to prevent malfunctioning of instruments.
 - o's and Don'ts of HPLC/HPTLC analysis. Application of HPLC and HPTLC method in nerb QC/QA operations

MORE ABOUT TRAINING

Duration 07 days (Residential).

20 (First come first served basis) Batch size

Mode of

on

Interested candidates have to submit the

Registration Form along with course fee Registrati

(available on CIMAP website).

Registrati : Students: INR 15.000/-

on Fee Industries/Institution sponsored: INR

20.000/-

The demand draft in favour of "Director, Payment: mode

CSIR-CIMAP, Lucknow "payable at Lucknow

or through online transfer.

Bank Detail for online transfer-

: 30267691783 Account

No.

Account : Director, CIMAP, Lucknow

holder

Bank : State Bank of India, Main Branch,

Address Hazaratganj, Lucknow : 000125 Branch

Code

IFSC code : SBIN0000125 MICR code 226002002

Note: No Refund is permissible in any circumstances. The selected candidates will

be informed on phone/email.

Accomm Program is residential. odation

Limited accommodations will be available on

twin sharing basis in our quest house.

29 February - 06 March, 2020 **Dates**
